EDUCATION

The University of Texas at Austin	Bachelor of Business Administration, Management Information System	May 2020
The University of Texas at Dallas	Bachelor of Science, Computer Science	Summer 2018 – Spring 2019

WORK EXPERIENCE

General Motors - Software Developer; Austin, TX September 2020 – Present

- Design and develop UI/UX interface (widgets and components) for new Fleet Management Portal app using Next.JS
- Authored, configured, and created UI components through Adobe Experience Manager
- Configured Frontend components and functionalities, and improved Frontend (Jasmine) and Backend (JaCoCo) unit test coverage

YJKS Investments, INC - Manager; Dallas, TX January 2016 – August 2019

- Expanded a small business to multiple operations, increasing total revenue from \$60,000 to \$300,000
- Hired, supervised, and trained over 10 employees, and responding to on-call emergencies throughout the week while maintaining healthy relationship with workers and customers
- Generated more than \$10,000 additional profit by integrating social media and food delivery services through UberEats and DoorDash

PAST PROJECTS

Celestiq Cadillac Access Page – General Motors Spring 2022

- Planned and developed a frontend UI and web content using TypeScript (shadow/light DOM, HTML, CSS, JavaScript)
- Utilized POST method to connect to PCF backend service to reroute url and iframe src using json API response object with unique scripts

McCombs MS Registration System – MIS374 Spring 2020

- Consulted with admin and dean to improve the current UT Business Master of Science Programs course registration process by diagnosing issues and solutions using agile methodology
- Incorporated project management processes ranging from root cause analysis, stakeholder table, user stories, Gantt chart, and concept diagrams
- Cooperated with five team members for weekly meetings and acquired responsibility of specific tasks

Bank Web App – MIS333K Fall 2019

- Created checking, savings, IRA, and stock accounts with functionalities ranging from deposit, withdraw, transfer, purchase, and payment using ASP.NET Core C# Web Application and Azure portal to host the data
- Implemented user login and password with different roles such as manager, employee, and customer, and migrated seed data using EF Core migrations
- Coordinated and lead three team members, while assigning specific tasks and responsibilities to each member

LEADERSHIP EXPERIENCE AND ACTIVITIES

Foundation Communities – Tax Preparer January 2020 – Spring 2020

- Obtained Basic, HSA, Advanced certification for VITA program
- Processed tax return for low income clients using TaxSlayer software, and assisted program staffs with organizing files

Mexico Medical Mission Trip – Volunteer July 2019

- Coordinated with over 100 patients for a quicker checkup by supporting doctors with pre-screening
- Assisted doctors and dentists with tools, surgery, cleaning, and translation
